SUMMARY

A versatile full-stack developer committed to delivering cutting-edge solutions with a modern flair, while prioritizing the creation of readable and maintainable code.

PROJECTS

Snipp - Next.js Self Blog App [\(Live Demo\)](#)[Source Code](#)

- Developed a personal blog application using **Next.js** as a fullstack framework for both frontend and backend.
- Implemented user authentication using social accounts (Google, GitHub) and email/password with **Auth.js**.
- Created functionalities for viewing posts, with admin capabilities to add, delete, and manage posts and users.
- Enabled admin to promote users to admin status, manage user roles, and ensure secure access control.

heeder - E-commerce Application [\(Live Demo\)](#)[Source Code](#)

- Developed e-commerce for audio products with **ExpressJS**, **NodeJS**, **EJS** as View Engine and **MongoDB** as Database.
- Implemented Email **OTP** authentication for user registration using **Nodemailer**.
- Integrated Payment gateway using **Razorpay**.
- Integrated functionalities including **Wishlist**, **Shopping cart**, **Coupon management**, **Offer Management**, **Order Management** and **Product return**.

SKILLS
